

READY TO USE

VIALS AND CLOSURES

EMBELIA

LE PACKAGING FULL SERVICE

Our offer is especially adapted to biotechnology companies, CMO, pharmaceutical laboratories using smaller quantities filling of high values drugs and meet regulatory requirements from research and development to industrial scale production.

BENEFITS

FLEXIBILITY

- Small pack quantities available.

READY TO USE (RTU)

- Sterile components Ready to use.
- Faster to market.

REDUCED TOTAL COST OF OWNERSHIP (TCO)

- Allows pharmaceutical companies to outsource their non-core activities, to lower their footprint and reduce the costs related to personnel and utilities.

INCREASED QUALITY AND SAFETY

- **Vials**
OMPI EZ-FILL®, high quality type I glass according to pharmacopeia: EU, US, JP.
Packed in tray to reduce breakages during storage and transport and handling. No glass-to-glass contact.
- **High quality stopper**
Protect drugs from contamination by providing an effective barrier, minimizing interaction between the drug and the closure while.
- **Aluminium closure** maintains integrity of the stopper and vial.

REGULATORY

- Certificate of conformity, tests reports, drawings and specifications available.
 - ISO 5 Class 100, GMP 15378.
-

These components are delivered sterilized, Ready To Use and available in small pack quantities.

Our solution is fully compatible with SGD PHARMA molded glass complying with ISO13 et ISO20 standards.

Main applications: Vaccines, auto-vaccines, injections, antibiotics, lyophilization.

OVERVIEW OF THE RANGE

VIALS

Capacity:

2R, 4R, 6R, 8R,
10R, 20R, 30R

Neck:

ISO 13 (2R to 4R)
ISO 20 (6R to 30R)

Material:

Glass Type I

Color:

Clear glass

Sterilization:

Water For Injection
Depyrogenization
ETO (ethylene oxide)

Packaging:

In tray
Akilux box

STOPPERS

Type:

Serum
Lyophilization

Neck:

ISO 13 mm
ISO 20 mm

Material:

Bromobutyl / Chlorobutyl

Color:

Standard in grey

Sterilization:

Steamed

Packaging:

Triple bag (double
STERILizableBAG & 1 bag)
Akilux box

SEALS

Type:

Flip-off

Neck:

ISO 13 mm
ISO 20 mm

Material:

Aluminium

Color:

Top red or Top white

Sterilization:

Gamma irradiation

Packaging:

Triple bag (double
STERILizableBAG & 1 bag)
Akilux box
