ADVANTAGES

Aluminium Assets:

- **Barrier material:** Protection against light, moisture, hydrogen and oxygen. Fugitive substances of the formula cannot escape.
- **Compatible with a multitude of formulas**
- **Corrosion resistance** (well suited for humid area)
- **Unbreakable & light**
- **Recyclable** indefinitely (even with decoration and varnish)
- **Lower carbon footprint** (compare to glass and plastic)

Free BPA varnish assets:

- **BPA free varnish** (Douceur & Arte ranges)

To meet the European requirements EMBELIA adapts its offer and proposes from stock aluminium bottles with an BPA free inner varnish.

The selected varnish has a good chemical resistance and is perfectly adapted to the internal protection of aluminium bottles.

DECORATION

VARIOUS **FINISHING** ARE POSSIBLE AND MAKE YOUR BOTTLE **UNIQUE**:

Offset decoration on aluminium

Very precise technology divided into 3 mains phases:

1- Basecoat

- White: for an excellent rendering of non-metallic colors
- Transparent: to keep the metallic aspect of the bottle
- Customized in accordance with customer target

2- Offset decoration 1 to 6 colors or 6 colors + hot stamping

3- Overcoating varnish

Shiny semi-matt (various formulations possible according to the target...), matt and SOFT TOUCH (velvet aspect)

Other decoration technologies

Hot stamping: Gold, silver as standard but always tailor-made according to a precise brief (holographic foils, colors...)

To know:

In some cases, gold offset can be offered in substitution of Hot stamping)

Embossing: Allows customization with a mechanical deformation in the body of the bottle

Assets:

- Protection of the brand (hardly repeatable)
- Unique feel

JAR DECORATION

WE OFFERS A CUSTOMIZATION OF THE JARS:

Embossing,

Lacquering,

Digital printing on the top of the lid or on bottom of the jar. This technology allows precise and high-quality decoration.
